

Instructions to use Marley 'Get Together 2' Bluetooth® speaker

SWITCHING ON and CONNECTING

1. If not ON, switch on power by pressing power button for 2 seconds. (Green LED below on/off button will temporarily illuminate)

NOTE: The power button is found on the back of the speaker).

2. It automatically will enter Bluetooth pairing mode with the Blue LED on the top of the speaker unit flashing for the next few minutes.
3. On your Smart phone / Tablet connect to the Bluetooth device named "Get Together 2"

Note: You will need to do this each time you use the system.

SWITCHING OFF

Your welcome, to switch the power off if you would like to conserve power. However, you don't need to do anything and can just leave the unit as is, ready for the next person.

1. Switch OFF power by pressing power button for 2 seconds. (The power button is found on the back of the speaker).

NOTE: That if not paired the speaker will power down after about 5 minutes.

Troubleshooting Tips		
Problem	Possible solution	
No Power	Make sure the speaker is connected/plugged into the power outlet	
	Ensure that the power outlet is switched ON	
Not able to connect/find device on Smart phone/device	Make sure that you have your Bluetooth switched on your Smart phone/device	 <p><i>Example screen shots from iPhone settings</i></p>
